

PERUNA

Many a woman, sick and weary of life, dragged down by weakening drains, painful irregularities, depression, and the hundred and one ailments which affect women only, has found in Peruna a bright star of hope, which has changed her misery to joy, her suffering to health.

No woman need suffer from the derangements peculiar to her sex, if she will give Peruna a fair trial.

The majority of weaknesses which make woman's life a burden, spring from a simple cause. The mucous membrane which lines the pelvic organs becomes weakened and inflamed owing to strain, cold, overwork, etc. This causes catarrhal congestion, inflammation, painful irregularities, depression of spirits, irritability, weakness and suffering. It shows in the haggard lines of the face, the dull eyes, the sallow complexion and singular form.

For the prompt cure of such ailments try Peruna. It drives away the "blues," clears the complexion, brightens the eyes, changes thinness to plumpness, and cures pains, aches and drains, bringing it immediately strikes at the root of such troubles and removes the cause.

UNCONFIRMED REPORTS.

Change in Prince Tuan's Role And The Russian Blockade.

NOTHING-IMPORTANT SOON.

Washington, Oct. 1.—The state department has not been advised officially of any events of more or less importance which are said to have occurred in China according to the various European reports, within the last twenty-four hours. If Tuan has been degraded, and if Russia contemplates a blockade of the Chinese naval ports, the department does not know the facts.

It has let it be known to the Chinese government that Tuan's promotion would be unwelcome to this government, but it has not yet been informed of the results of that representation.

Respecting the statement that Ching has been discovered to be a contributor to the Boxer cause, it is said that all the information that the department has been able to secure touching Ching's personality went to show his unvarying friendliness for the foreigners, and upon that record he was accepted as a competent envoy.

The officials declined to say whether or not the instructions to Minister Minister Conger have gone forward yet, but it is estimated that the minister is fully advised by this time as to the state department's policy. It is said, however, that the statement may be significant, that no developments in the Chinese situation of importance are expected within the next two weeks at the least.

American Troops Not Under Waldersee.

Washington, Sept. 27.—Instructions of the secretary of war are cabled to General Chaffee that pending negotiations for settlement, a legion group of a regiment of infantry, four troops of cavalry and a light battery under the command of General Chaffee will remain in Pekin for the protection of our minister and American interests, and that the remainder of General Chaffee's force, along with staff officers not required, stores, etc., will be sent to General MacArthur at Manila.

The small force left in Pekin will not be included in any military operations which may be conducted by the allied armies and so will not fall subject to the direction of Field Marshal Count Von Waldersee, the commander-in-chief.

Pony Meat For Sweden.

Topoka, Sept. 29.—During Secretary Wilson's address before the Good Roads congress he referred to new industries which had originated from the work of the department of agriculture, among which he mentioned one located at Portland, Oregon, where, he said, great slaughter houses and these little ponies are taken there, slaughtered and canned. There is a big demand in Sweden for dried reindeer meat. There is not a Swede in the land that can tell the difference between a nice piece of the American pony when he is properly dried and prepared, and a piece of dried reindeer meat.

Campers Supposed to be Drowned.

Perham, Minn., Sept. 29.—W. E. Hoscoe and C. E. Ballinger, both of St. Joseph, Mo., who had been camping on Lake McDonald, have been missing since Sunday. Their boat was found capsized in the middle of the lake and a coat that was worn by one of them was found on shore. The supposition is that they went sailing and were drowned.

How to Get Good Roads.

Topoka, Sept. 29.—It was stated at the Good Roads congress here that there is a bill now pending in congress which will furnish a way to get around this difficulty.

"That bill provides that any municipality, which sees fit to do so may borrow money from the government to carry forward the work. Of course to get this money from the government it will be necessary for the people residing in a township or county to vote a tax on themselves to show to the government that they are acting in good faith. This sum borrowed from the government is to be paid back at the rate of four per cent of the principal each year. No interest will be charged for the use of the money."

A Thousand Quit Because Three Work.

Tampa, Fla., Sept. 29.—A general strike is ordered in the cigar factories of Sanchez & Heya and Arguñales, Lopez & Bro., about 1,000 persons being thrown out of work. The trouble arose over the employing of three non-union workmen.

Secretary Hay Given Credit.

Washington, Sept. 29.—The health of Secretary Hay has improved rapidly of late, and it is expected that he will return to Washington early next week and resume the duties of his office, relieving Dr. Hill, the acting secretary, who has been suffering from a malaria attack. Assistant Secretary Ade said Secretary Hay had been in constant communication with the department during the past month and personally shaped the Chinese negotiations in that period.

At Hutchinson Reunion.

Hutchinson, Sept. 28.—Iowa had an enthusiastic crowd at their headquarters at the G. A. R. reunion. Their election of officers resulted as follows: President, E. T. Wolf, of Carbondale; first vice president, Ira Davis, of Nickerson; second vice president, Mr. Bartley, of Richland, Shawnee county; secretary, P. R. Cory, of Dundee; assistant secretary, H. H. Robertson, of Lyndon. Colonel U. B. Pearsall, of Leavenworth, is officer of the day to day which is W. R. C. day.

A REVERSE EXPERIENCED

On an Island Three Hundred Miles South of Manila.

Washington, Oct. 1.—General MacArthur reports that Captain Devereaux Shields, with 51 men is missing. The detachment was on Marinduque, a small island lying due south and about 300 miles from Manila.

Captain Shields appears to have started from Santa Cruz on a gunboat for Torrijos, a small coast port, and it is inferred that the boat as well as the body of troops under that officer has been captured, for the dispatch makes no reference to his return.

General MacArthur scarcely doubts that the entire party has been captured. Colonel George S. Anderson, with two infantry companies, was sent to the island at once with orders to commence immediately and to move relentlessly until Shields and party are rescued. All troops are expected to return soon. Logan will be sent to Marinduque if necessary, to clear up the situation.

Dreyfus Still Unsatisfied.

Paris, Sept. 29.—The Presse publishes an alleged letter from Alfred Dreyfus to M. Tradiens, the former minister of justice, in which the writer says: "The moral effects of the iniquity still exist and the mental torture is as great as ever. Since justice has not been done to me, the aim I pursue remains the same until attained, viz: the legal revision of my trial."

The Presse cites this letter as "proving that the Dreyfusards are still agitating and persist in their intention to keep alive the hatred and discord of recent years."

General Miles' Order.

Washington, Oct. 1.—Lieutenant General Miles has issued a general order to the army intended to secure a general improvement in the morale and physical condition of the force. The order particularly directs the inculcation of patriotic principles, the celebration of national holidays by patriotic readings, strict attention to salutes, respect for the flag and strict attention to good martial music, especially vocal music. The importance of discipline is dwelt upon, and loyal and cheerful obedience demanded.

Funds for City Government.

Galveston, Texas, Sept. 29.—Nearly 2,000 men were engaged in clearing the streets, removing debris and disposing of dead bodies. Sixty bodies were recovered in the past two days.

Governor Sayers has gone to consult with the attorney general relative to a proposition from the city government for a fund with which to operate the municipal government from now until the end of the fiscal year, February 28. About \$100,000 will be required. Governor Sayers discouraged the idea of using the relief fund for this purpose.

Three Wheat States' Short Crop.

Minneapolis, Minn., Sept. 29.—Those people who have been making estimates on the wheat crop of the northwest—which comprises the states of Minnesota, North Dakota and South Dakota—have had to revise their estimates within the last day or two. The heavy and continuous rains in this section during the past eighteen days have cut the already short wheat crop in half. It is the opinion of conservative crop experts that the crop which is now being put on the market will fall short of 60,000,000 bushels.

Howard to Hang.

Frankfort, Ky., Sept. 27.—The jury in the case of James Howard, on trial for alleged conspiracy in the assassination of Governor Goebel, after being out two days returned a verdict of guilty with the penalty fixed at death.

Ultimatum Story Denied.

London, Sept. 29.—The British authorities discredit the report that Germany will present an ultimatum to China and intimate that it was probably concocted at Shanghai with the object of causing friction between Germany and Great Britain and thus delaying united action. The officials of the German embassy declare the "ultimatum story" to be absolutely groundless.

Thousands of Native Catholics Killed.

New York, Sept. 28.—Among the missionaries killed by Chinese in the massacre in the Yun-Man province were Bishop Fantassili and Father Quirine, of the Roman Catholic church. The bishop died after the most awful torture. No direct word in confirmation of this particular report has yet come to Catholic missionary authorities in this city.

A telegram from the convent of the Holy Soul in Shanghai states that forty-five thousand native Catholics have been massacred in different parts of the empire.

Salina Has Crowds in the Rain.

Salina, Sept. 29.—Salina entertained about 10,000 visitors during a downpour of rain. The special trains brought in big crowds and when the Wild West parade took place, the streets were literally jammed with people. Visitors camped around in the mud from early morning until late. At night the crowds became so large that it was impossible to accommodate them, and many were compelled to sleep at the city hall, in depots, lunch-rooms and other places.

Able Bodied Men Must Work.

Galveston, Sept. 28.—Manager Hill, of the Galveston, Houston & Henderson railroad, appeared before the relief committee in behalf of all the railroads and stated the conditions, requesting the committee to cut off all railroads to able bodied men, as there is plenty of work for them to do at good wages. The relief committee replied that it was doing its best to cut down railroads in the way suggested and that the output was daily growing less, but it requires time.

Value of Grass and Exercise.

Experiment Station Bulletin No. 40 of the Utah Agricultural College gives account of four years' investigation made to determine the value of grass and exercise and their relation to each other in the production of pork. In summing up the results of the experiments, Mr. A. A. Mills, the agriculturist, sets forth the following observations:

1. Pigs allowed to run at large over eighteen acres of good pasture and fed a full ration of grain made the most rapid growth, and required the least grain for one pound of gain.
2. Pigs confined in movable pens in the pasture grew more slowly than those running loose, and required an increase of twenty per cent of grain to make one pound of growth.
3. Pigs at pasture, fed under three different conditions, gained 92.5 per cent more and ate but 2 per cent more than the pigs getting grass and otherwise similarly fed but confined in pens. The grain required to produce one pound of gain was increased 40 per cent with those in pens over those at pasture.
4. Pigs fed but part rations of grain at pasture made satisfactory gains. Those at pasture getting the three-fourths grain ration gained more than those fed a full grain ration and grass either in the yards or in the pens.
5. Pigs pastured without grain made about the same growth for three seasons in the grass, this averaging .36 of a pound per day.
6. As nearly as can be judged, exercise alone increased the gain 22 per cent, and the quantity eaten but 1.5 per cent, but decreased the quantity required for one pound of gain 22 per cent.
7. Grass when cut and fed green to pigs, whether fed in pens or yards, or with full or part grain ration, or without grain, proved to be of very little value.
8. Pigs confined in pens, and fed on grass alone, mostly alfalfa, for ninety-one days, lost over a quarter of a pound per day.
9. The average of the pigs fed on grass gained a little more than those without the grass, but not enough to pay for the extra feed in the grass.
10. With the pigs confined in the hog-house pens, the grass proved beneficial, while with those in the yard it proved detrimental, the latter requiring more grain to make a pound of pork with the grass than without it.
11. Pasturing, either with full or with part grain rations, appeared to be by far the cheapest and best way of making pork.

Cheating the Hessian Fly.

In the middle West at least the Hessian fly has become a great obstacle to wheat growing. Last fall its ravages were so widespread that a great shortage is the result this year. The last winter was a hard one on the wheat plant, but it would have been able to come out of it without much injury had it not been for the fact that the plant was much reduced in vitality by the fall attack of the Hessian fly. While, were it not for this pest, early planting of wheat would be desirable, as it is we must depend very largely on late planting to enable the new crop to escape the fall brood of Hessian flies. Professor Troop, of the Indiana Experiment Station, puts the plan of that station in the following words: "The active period of the fall brood, in the northern counties extends (approximately) from the last of August to about the last of September, gradually getting later as they go south, so that in the southern portion they will be found at work probably as late as the middle of October. It is evident, then, that, in order to avoid the fall brood of the fly, the proper time to sow wheat in the northern counties is between September 20 and 30, and in the southern counties from the first to the middle of October. The station will not sow earlier than the first week in October this year, as the flies were active throughout September in 1899." With this late sowing, it is evident that the ground should be in first-class condition, both as to mechanical form and fertility, so that growth may be rapid after the sprouting of the grain. The question of fertility is one that is bound to play a great part in the future fighting of the Hessian fly, as with fertile ground only can we expect to secure enough growth in the late fall to enable the plant to withstand the vicissitudes of the winter. High fertility, even on lessened areas of land, will ultimately be the order of the day in American wheat growing; and under its operation the Hessian fly may be starved out.

Everything may come to the man who waits—except another man who owes him money.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on the advice of some reliable physician, and your damages will do you no good if you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials freely. Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.

You will observe that men who pose as fancy whistlers seldom amount to much.

Eat What You Like.

When you take Morley's Liver and Kidney Cordial, for then, dyspepsia, indigestion, heartburn, foul breath, dizziness, and the long train of similar troubles will disappear and your cleansed and awakened system will demand food. Sound digestion and sound appetite go together, and both follow the use of this time-tried remedy. Sold by agent in every town.

Men are not necessarily lazy because they try to do things the easiest way. Wisdom has an up-hill fight against a fool.

What we need is more unwritten poems and unsung songs.

The deaf mute should never be lonely. When there's no one around he can talk with his fingers.

100 WINCHESTER AVENUE NEW HAVEN, CONN.

"I could 'nt Sew another Stich to Save my Life."

A gorgeous costume flashed beneath the brilliant lights of a ball room. The queen of society is radiant to-night.

The nervous hands of a weak woman have toiled day and night, the weary form and aching head have known no rest, for the dress must be finished in time.

To that queen of society and her dressmaker we would say a word. One through hothouse culture, luxury and social excitement, and the other through the toil of necessity, may some day find their ailments a common cause.

Nervous prostration, excitability, fainting spells, dizziness, sleeplessness, loss of appetite and strength, all indicate serious trouble, which has been promoted by an over-taxed system.

For the society queen and the dressmaker alike, there is nothing so reliable as **LYDIA E. PINKHAM'S VEGETABLE COMPOUND** to restore strength, vigor, and happiness.

Mrs. Lizzie Anderson, 49 Union St., Salem, N. J., writes:

"DEAR MRS. PINKHAM:—I feel it is my duty to write and tell you how grateful I am to you for what your medicine has done for me. At one time I suffered everything a woman could. I had inflammation of the ovaries, falling of the womb, and leucorrhoea. At times could not hold a needle to sew. The first dose of your Vegetable Compound helped me so much that I kept on using it. I have now taken six bottles and am well and able to do my work. I also ride a wheel and feel no bad effects from it. I am thankful to the Giver of all good for giving you the wisdom of curing suffering women. I recommend your medicine to every woman troubled with any of these diseases."

Mrs. Sarah Swoder, 103 West St., La Porte, Ind., writes:

"DEAR MRS. PINKHAM:—It gives me great pleasure to tell you how much good Lydia E. Pinkham's Vegetable Compound has done for me. I had been a sufferer for years with female trouble. I could not sew but a few minutes at a time without suffering terribly with my head. My back and kidneys also troubled me all the time. I was advised by a friend to take your medicine. I had no faith in it, but decided to try it. After taking one bottle I felt so much better that I continued its use, and by the time I had taken six bottles I was cured. There is no other medicine for me. I recommend it to all my friends."

\$5000 REWARD Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass., \$5,000, which will be paid to any person who will furnish us with a testimonial not genuine, or were published before obtaining the writers' special permission.—LYDIA E. PINKHAM MEDICINE CO.
